Suggested Scenario: **Control**

Setup: Place the Glyph of Quillivon (Q) and the Glyph of Haukeland (H) power-side up where shown on the map.

Special Rules: At the end of each round, players score 1 victory point for each Laur Wall (numbered 1-6) they hold. A player holds a Laur Wall if figures they control occupy more spaces adjacent to that wall than figures their opponent controls.

Victory: At the end of round 6, that player with more victory points is the winner. If both players have the same number of victory points, the player with the most points on the battlefield wins. A player wins immediately if they destroy all of their opponent's figures.
